Subject of the presentation

European Framework for Transparency of Qualifications and Competencies, namely **Europass** and its relation with **KITE** which aims to contribute to the Europass promotion and implementation through an alternative technological model compliant with **HR-XML candidate specifications** and the Friend-Of-A-Friend vocabulary (**FOAF**).

Outline of the presentation

- 1 - Europass and the **Europass electronic portfolio**
- 2 - **Problems** related to the implementation of the Europass electronic portfolio
- 3 - KITE as an alternative project promoting **a candidate-centric approach** to manage personal information
- 4 - KITE **interoperability scenario**
- 5 - Europass-CV **plugin for blogs** principles and functionalities in action
- 6 - Europass-CV plugin **Profile application**
